847.377.3818

FOR IMMEDIATE RELEASE  
Waukegan, Illinois

### 19<sup>TH</sup> CIRCUIT'S IT DIRECTOR KEYNOTE SPEAKER AT 2016 MOBILITY SUMMIT

Winnie Webber, Information Technology Director of the 19<sup>th</sup> Judicial Circuit Court, served as keynote presenter and mobile technology spotlight speaker at the 2016 Mobility Summit currently in session. With over 21 years of experience with the 19<sup>th</sup> Judicial Circuit Court, Ms. Webber holds a BS in Math and Computer Science from the University of Manila.

Ms. Webber and the 19<sup>th</sup> Judicial Circuit, under the supervision of Robert Zastany, Executive Director, and in support of the overall vision of Chief Judge Jorge L. Ortiz, are deploying the Mi-Forms mobile business process software platform as part of a system modernization program for data capture. In support for the Paperwork Reduction and Elimination Acts, the Mi-Forms platform will be used to support the Pre-Trial Bond Report, as well as other critical work flow documents that are integral to court operations.

"These are exciting times in the world of technology and the courts must implement new technological advancements in order to meet the needs of the public, judges, attorneys, and litigants, and improve access to the services of the court system," said Chief Judge Ortiz. "Our staff's expertise and determination continue to validate the 19<sup>th</sup> Circuit as one of the most progressive court systems nationwide."

-more-

“Clearly leading the way for operational excellence within the Courts, the leaders of the 19<sup>th</sup> Judicial Circuit have always challenged the status quo. By moving processes away from paper to modern digital solutions, they continue to reduce the use of paper documents required to support the business of the Courts,” stated Robert Letzeisen, Software Executive at Mi-Corporation.

The Mobility Summit was held at the Durham Convention Center in downtown Durham, North Carolina on April 13<sup>th</sup> and 14<sup>th</sup>.
