- To provide a structured and secure environment for youth assigned to detention in order to assure the safety of youth and protection of the community.
- To facilitate collaboration and cooperation among juvenile justice partners in order to share information, increase professional understanding among participants, and enhance the delivery of evidence-based services for clients.

PREA Incident Reviews

A PREA Review Committee was established in 2016 that reviews all substantiated or unsubstantiated allegations of sexual abuse as required by PREA standard 115.386. The committee is composed of the Superintendent, Deputy Superintendents, PREA Coordinator, and a therapist. The committee shall:

- (a) Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse;
- (b) Consider whether the incident or allegation was motivated by race, ethnicity, gender identity, lesbian, gay, bisexual, transgender, or intersex identification,

- status, or perceived status, or gang affiliation or was motivated or otherwise caused by other group dynamics at the facility;
- (c) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse;
 - (d) Assess the adequacy of staffing levels in that area during different shifts;
 - (e) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and
 - (f) Prepare a report of its findings, including but not necessarily limited to determinations of the above review criteria and any recommendations for improvement and submit such report to the facility head.

There were no substantiated or unsubstantiated incidents of sexual abuse to review during this period.

Analysis / Corrective Action

There were no substantiated or unsubstantiated allegations of sexual abuse to analyze.

The Hulse Detention Center and FACE-IT Residential Program routinely review and analyze incidents even when not classified under the PREA standards or when determined to be unfounded. These reviews lead to improvement in policy and procedure to ensure staff are using best practices in the juvenile justice field.
